Ms. Kristine Koch
Ms. Deb Yamamoto
Re: 104(e) Responses
Brix Maritime / Foss Maritime
August 14, 2008
Page 2

Consequently, it has become clear to us that in order to finalize the response Brix and Foss will need a brief additional extension of time to respond. Therefore, Brix and Foss by this letter request four additional weeks in which to complete and submit their responses to EPA, to and including September 15, 2008. We do not anticipate that either Brix or Foss will need any additional time beyond that date to finalize their responses. We would appreciate your consideration of this request.

If you have any questions, please do not hesitate to contact me.

Sincerely,

GARVEY SCHUBERT BARER
